**STERILIZATION:** We recommend that your pet is sterilized before the age of 6 months. Additional surgical fees may be applicable if your pet is over 6 months of age, is in heat at the time of surgery, has retained testicles or your pet is over 50 pounds at the time of surgery. Blood testing is performed at the time of the procedure to ensure that your pet is healthy enough to undergo the procedure and anesthesia. Blood abnormalities may require postponing the procedure. You will be responsible for the cost of any additional blood panels outside the program needed to ensure that blood abnormalities have resolved.

**HEARTWORM PREVENTATIVE:** A 6 month supply of Heartgard® will be dispensed every 6 months. Substitution with ProHeart Injectable is allowed at no additional charge for dogs less than 75 lbs. Dogs must be older than 6 months of age to receive ProHeart injection

**PLAN CANCELLATION:** All care package services are sold as a bundle at a discount under annual contract divided into payments. Care packages can be cancelled at any time. If a package is cancelled before the end of its term for any reason, you are responsible for any remaining payments or the full retail value of services and discounts provided to you under the program, whichever is less. A \$40 early cancellation fee will apply.
